Middle East Scholar Barometer

Co-directed by Shibley Telhami and Marc Lynch Kirsten Langlois, Project Manager

A Joint Initiative of the University of Maryland Critical Issues Poll and the Project on Middle East Political Science at George Washington University

Survey Methodology

This survey was carried out November 10-17, 2023, online using the University of Maryland's Qualtrics platform. The poll was distributed to 3,214 recipients resulting in 936 responses. Recipients included those who are members of the Middle East and North Africa section of the American Political Science Association (APSA), the Middle East Studies Association (MESA), as well as members of the American Historical Association (AHA) who specialized in the Middle East, and other relevant contacts of the Project on Middle East Political Science (POMEPS) at George Washington University. The poll was conducted using an anonymous link sent out via email, which did not collect any identifiable information about the respondents. The poll was designed using the University of Maryland's Qualtrics platform, which generated the anonymous link that was sent out, and the data from the responses were also collected on this platform. The questions, some of which were repeat questions from previous polls, were prepared by the two principal investigators in consultation with the academic advisory committee of the Middle East Scholar Barometer.

Note: Percentages may not always add to one hundred due to rounding

Dear Colleague,

We would like to invite you to take this brief scholars' survey on Middle East politics (Middle East Scholar Barometer). In this survey, the sixth since February 2021, we repeat some of the same questions from previous rounds so we can track shifts over time, as well as ask some new, timely questions, especially about the ongoing Israel-Gaza war. We kept it short so that the survey should take 5-7 minutes to complete. Please note that we will make no effort to sell anything to you, your answers will remain confidential, and you will remain anonymous. We will also share the final aggregate results with you. If at any time you find that you do not want to answer a question, feel free to skip it and move on to the next one. We value all feedback on this project.

Thank you in advance!

Best,

Marc Lynch

Professor of Political Science and International Affairs Director Director, Project on Middle East Political Science (POMEPS)

Shibley Telhami

Anwar Sadat Professor for Peace and Development Director, University of Maryland Critical Issues Poll

Questions:

This research is being conducted by Dr. Shibley Telhami at the University of Maryland, College Park and Dr. Marc Lynch at George Washington University. We are inviting you to participate in this research project because you are a scholar focusing on the Middle East and North Africa. The purpose of this research project is to gauge expert opinions on Middle East politics.

Below you will find a series of questions related to Middle East scholarship, followed by demographic questions, that should only take you five minutes to complete. As this survey is being conducted using an anonymous link, no identifiable information about you will be collected.

Any potential loss of confidentiality will be minimized by not collecting your email address (through the use of anonymous links) or any other information that can allow you to be identified. The data from this survey will be securely stored in the principal investigator's password protected accounts.

If we write a report or article about this research project, your identity will be protected to the maximum extent possible. Should you need to reach us for any reason regarding this survey, please contact us at sadatoffice@umd.edu.

If you have questions about your rights as a research participant, please contact the University of Maryland Institutional Review Board at irb@umd.edu.

Your participation in this research is completely voluntary. You may choose not to take part at all. If you decide to participate in this research, you may stop participating at any time. By consenting below, you indicate that you are at least 18 years of age.

I acknowledge that I have read the information about the survey above and I give my consent in order to participate: [PN: FORCE RESPONSE]
